Commercial offer

supplies of organic agricultural product based on peat

For advanced agricultural enterprises, farmers and private farms engaged in organic farming, we offer an **agricultural product based on lowland peat**, which is a complex of biologically active organic substances, especially humic and fulvic acids, which **excludes chemical and thermal effects during production**.

It is based on an innovative patented green technology of ultrasonic splitting of natural raw materials to the specified nanoscale sizes of 40-60nm in an aqueous medium.

Product is used:

1. As the **main organomineral fertilizer**, without the use of other fertilizers or chemical plant protection products.
2. As a fertilizer for **non-root fertilizing**, in combination with the main application of plant protection products, herbicides and any mineral or organic fertilizers.
3. To **enhance the energy of germination** and germination of seeds.
4. To **improve the physical properties of the soil** and increase the erosion resistance.

Contains:

1. A complex of biologically active organic substances: Humic acids, Fulvic acids, Mono and disaccharides, Waxes, paraffins, oils, Cellulose, Lignin.
2. Macro-and Microelements, including: N, P, K Ca, Mg, Fe, Zn, Cu, Mo, Mn.

Methods of application:

1. Seed treatment (1-3 liters / mt of seeds);
2. Watering under the root (100-150 liters / hectare);
3. Foliar top dressing (1-3 l/ha for field crops; 5-20 l/ha for large-leaved);

Increase in height:

- | | |
|---|-------------------------------|
| • Cereals and legumes: | 15-20% |
| • Vegetable crops (cucumbers, tomatoes, peppers): | 20-25% |
| • Industrial crops (sugar beet): | 65% (increase in sugar yield) |
| • Melon crops (watermelon, melon): | 20% |
| • Forage crops, lawn grasses, flowers: | 15% - 80% |

To get started, tell us your acreage, crop types, current processing methods and fertilizers applied, and we will calculate the required volume of concentrate for you, and offer the **best delivery terms**:

- ✓ **Direct contract with the manufacturer;**
- ✓ Shipment in Russia and for export, with all the necessary documents.

With respect,
Directorate of ProValue Industry
